ABOUT ME

Hi! I'm Aleks. I'm a visually driven person who loves exploring new ideas and simplifying information, story and content into enjoyable chunks through **motion graphics**, **video production**, **graphic design**, and **illustration**. Having moved countries twice, I'm open and adaptable to different environments and would love to bring new, creative solutions to any workplace - along with my honest efforts to learn a new language and varying attempts at humour!

intermediate

HOBBIES & INTERESTS

Plants

Storytelling

PC Games

Dungeons & Dragons

Drawing

Horse Riding & Winter Sports

More About Me

STUDIES

I studied 2D animation in Duncan of Jordanstone College of Art and Design and have strong knowledge of animation, colour and composition fundamentals that I can apply to my current work.

WORK

CURRENT ROLE

As a Video Production Coordinator at Ellab, I get to put a voice and visual identity to the company. I currently work with all kinds of videos, ranging from short videos for social media, how-to's, to global promotional videos. I also coordinate filming shoots and composit that with graphics.

I put a lot of my focus into exploring exciting new ways of presenting information. I'm able to juggle a lot of tasks and projects at the same time, and my day-to-day usually involves:

- Development work - storyboards, concepts, style frames, script-writin, and choosing the right music to make sure it is optimised for video
- Video production - illustration for videos, compositing, animating
- Producing illustrations, printed graphics, and website visual content
- Working with my team on general marketing tasks

MY SKILLS

I'm proficient in the Adobe Creative Suite - I use After Effects, Illustrator, Premiere Pro and Photoshop. I can also animate in TVPaint and I can comfortably work in InDesign.

Additionally, I am well-versed in Wordpress and learn quickly, so I would gladly adapt to any new software or procedure.
